▲ **Arthritic Swim:** Exercises include walking, gentle stretching, flexing, extension and range-of-motion. Exercises are done in shallow water and focus on activities of daily living, moving a joint through your range of motion and holding it to feel a gentle stretch in the muscle.

**Water Walking:** Instructors lead the class through a light-intensity cardio workout that consists of walking around in the water. Movements are forward, backward, and side-to-side. Different types and styles of walking movements are preformed such as forward, backward, and side-to-side.

■ **Active Aqua Fit:** Active Aqua Fit utilizes the physical properties of water to enhance agility, range of motion, and cardiovascular conditioning. This class is designed for all active older adults or those who wish to start being active. It will help enhance each Individual's quality of life and daily function.

◆ **Aqua Zumba:** Classes vary each week. Your instructor will incorporate several world dance styles such as merengue, salsa, reggae, mambo, rumba, flamenco, calypso and salsa into the water fitness class. Through dance, you get a warm-up, great cardio workout and cool down in the pool.

**Aqua Aerobics:** Water Aerobics combines a variety of techniques from land aerobics. Walking or running with the addition of Aquatics strength training equipment provide a superior resistance workout. Water reduces the risk of muscle or joint pain while toning muscles. Participants can choose the level of their workout with the help of the instructor.

## YOUTH SWIM LESSONS
